

# Build a Collection in 5 Simple Steps

OK, let's get started...

1. Select [LUNA Collection Manager](#) from the main tools menu and then click "Create New Collection" in the Collection tab.

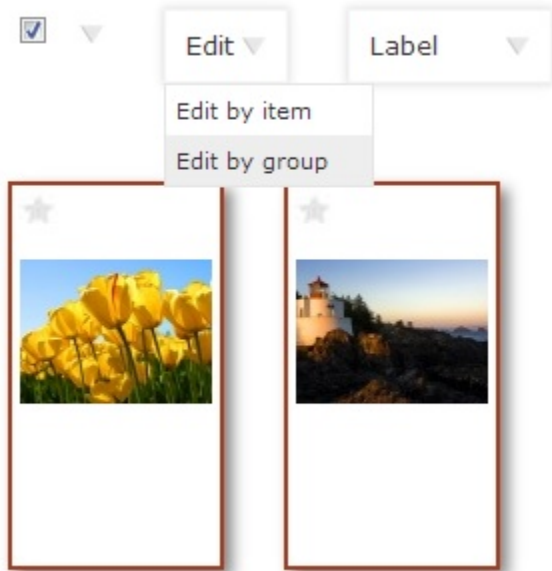

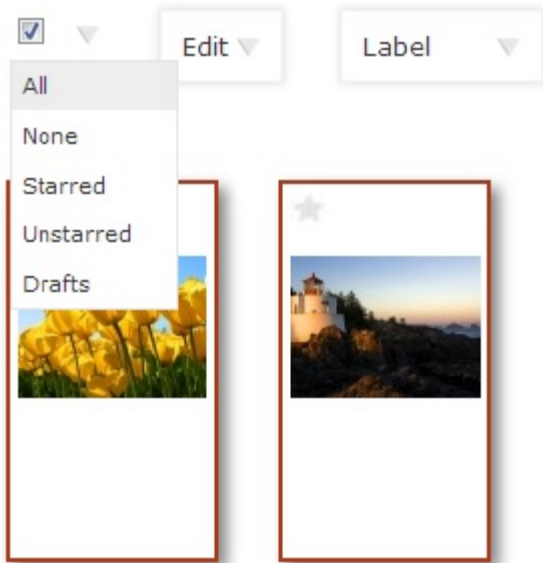

## LUNA Collection Manager

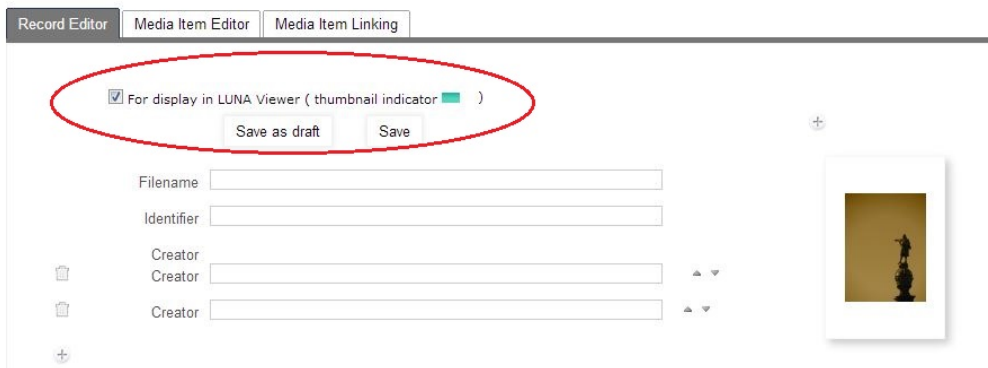

2. Give the collection a name and select the "Simple Labels" template. Click Save. *There are lots more properties you can set for the collection, [learn more](#).*

3. Navigate to the [LUNA Uploader](#) and select a handful of images and upload them.
4. Head over to the [LUNA Library](#) and select all images, then "Edit by Group".

5. Select "For display in LUNA Viewer". [Learn more about group edit.](#)

That's it, you've got a collection built and you can check out your content in the LUNA Viewer!
