

LUNA 7.1.6.3 Patch Release Notes

Posted November 5, 2015

LUNA 7.1.6.3 is a minor release that includes the following bug fixes.

- Fixed a bug in the Library's Find and Replace so that finding a value is case sensitive.
- Fixed a bug whereby Find and Replace was not working with selected items.
- Fixed a bug in the Library whereby group edits were requiring "required fields" within a field group before being able to save a change.
- Fixed a bug in the Library so that a group edit on a multivalue field within an Authority can be saved.
- Fixed a bug in the Uploader whereby PDF's with spaces in the name were not indexing for the Viewer's text in documents search to work.
